

Dear USCIS Officer:

[Brief of what this letter for] for example:

I am writing this recommendation letter on behalf of [Mr. Xxx Xx] for his petition for permanent residency based on his exceptional abilities, and I greatly support his application for a permanent residence in the United States.

[Introduction of the referrer] for example:

I am [Xxx Xxx], as a professor and Vice Director of [Xxx Xxx], I PhD in [Xxx] from [Xxx], and 2 postdoctoral fellows from Xxx, Xxx University in USA, Chinese University of Hong Kong, I mainly focus on Xxxx.

[Relationship between the referee and referrer] for example:

Mr. Xxx and I have not worked together, nor do I serve as his mentor. Our acquaintance stems from he is a student at the [xxxx]. Around Xxx, since my research related to data analysis and big data application within the industrial sector, and he has experience in industrial, so we had several discussion, and he invited me to some industrial forums. Most of our discussion is around the Xxx technology in industry and how the big tech company like Xxx, Xxx build their Xxxx, helped me a lot and bridge academia and industry effectively, especially as a professor mainly worked in the academia field. At Xxx, I had the privilege of serving as one of the esteemed members on the review panel for his graduate thesis.

[Evidence of why the referrer think the referee is outstanding for this petition] for example:

His thesis left a strong impression on me and proved beneficial to my own research. Mr. Xxx's paper addresses the challenge of xxxxx, a crucial aspect of xxxx. For instance, xxxxxx.

I learned that Mr.Xxxx's work involves more about how to apply cutting-edge theoretical innovations to industrial practice, such as: xxxxxxxx, xxxx, and xxxxx.

Mr. Xxxx stands at the forefront of Xxxxx, particularly in Xxxxx, aiming to merge advanced theories with practical solutions for real-world issues. His primary contributions include:

- I. Mr. Xxx demonstrates exceptional skills in theoretical innovation, his innovations boast high feasibility, commercial value, and practical significance, for instance, xxxx.
- II. Moreover, with rich experience in applied xxxxx, Mr. Xxx has exceptional skills effectively transforms theoretical advancements into tangible productivity, solving real problems, launching competitive products, and upholding leadership in competitiveness.
- III. Mr. Xxx explores advanced technologies and applying them across various industries. His ability to connect academia and industry is crucial, fostering collaboration and international benefit-sharing, surpassing the impact of academic-to-commercial institutions connections.

Mr. Xxxx's impact on technological progress extends beyond his current serving company. Through his active participation in industry forums and academia, he has significantly

influenced the advancement of technology. His contributions surpass those of an average engineer and have a ripple effect across other companies and academic institutions, I attest he is in the leading position of Xxxx in industrial.

[Why waive the PERM for the referee will benefits the US interest or apply PERM to this case is harmful to the states interest] for example:

The purpose of the labor certification process (PERM Labor Certification) is to assess whether a candidate meets minimum competency standards. However, this standard evaluation can't capture Mr. Xxx's substantial contributions and their broader impact. His achievements far exceed the minimum requirements outlined by PERM. Therefore, exempting Mr. Xxxx from the PERM process will not adversely affect the US labor market. Instead, his work in academia and industry will elevate the overall technical proficiency of the US talent pool, enhance labor skills, and improve labor welfare benefits.

In summary, I wholeheartedly endorse Mr. Xxxx's application for EB2-NIW classification. His ability will thus greatly benefit the United States to have Mr. Xxxx as a permanent resident, and I give my full support to his petition.

Best wishes,

Name, Title, Institute
